

## **The AENA Association.**

That's a short association of Cavaliers and King Charles lovers.  
In french, English Toys Spaniels means both breeds, cavaliers and King Charles Spaniels !

Like in France with the CENA, we would have like to be a club for both breeds but the belgian kennel club didn't want.  
Nevertheless we have a link to the Belgian kennel club with our walk club the Mehaigne's Kings, which is affiliated to.

One's a year we have a special meeting to make pictures of our dogs.

We also have two internet sites :

**<http://www.aena.be>**

which is a general site, whole in French, with links to pictures, news, articles about the breeds already published in the book, and to the other site dedicated to the pedigrees that you already know :

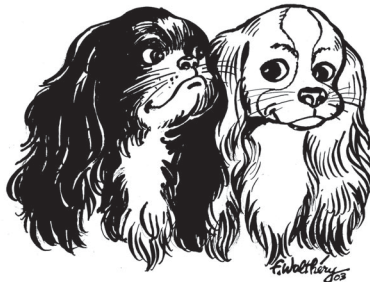

**<http://DhVg.ckcs-kcs.dyndns.org>**

In this last one (which has some English pages), you will find the pedigrees from both breeds, but also articles in pdf format, pictures etc.

Every members has a direct link to the dogs breed under his own kennel affix.

**With the first 2006's book, we begin with the english version !**

Didier.
