

Dear friends

As I promised, here comes for the beginning of this year your “special King”. I want to thank especially all the people who sent me stories, texts and photographs concerning this marvellous but not well known breed: « the King Charles Spaniel ». This “special” wants to be a review where each King lover can tell his passion for this breed and his love as well. As the writer on the review I never met such a success : that makes me very happy because I want since more than three years that this review be yours with a maximum of readers implication.

This review wants to be pleasant. It is founded and turned to love and respect. For one time, I wrote less about health. The physical health need first a moral health and to love our “King” is the best medicine for him.

May their life be made of happiness, of respect, of love. I deeply think it's what they hope and I want to tell it in their name.

The “Cavalier King Charles Spaniel” lovers don't have to be afraid : a “Special Cavalier King Charles” review will born soon ! I hope I meet near these readers a big interest also. That's why I wait for a mountain of texts, stories, photographs based upon love and passion.

Ending this edito, I want to thank very heartily Anne-Marie Wathelet for her translations and correcting. She helped this review to be what it had to be.

Thank you Anne-Marie for all that work !

Special thanks also to Ankie, which permit us to open the gold series with her articles about the breed.

We will also not forget Chantal and her friend Angie who worked together in articles and translations to make this book available.

At least, Sylvia Schmitz, who translated Ankie's notes in the shortest time ...

*Viviane Godenne,
Rédactrice en chef de la revue.*
